

# CUSTOMER EDUCATION CENTER

**PROJECT NAME**  
Customer Education Center

**CLIENT**  
McMillan James Equipment Co.

**LOCATION**  
Grapevine, Texas

**MARKET SECTOR**  
Education  
Office

**BUILDING SIZE**  
15,000 sf

**PROJECT COMPLETION**  
2012

**CONSTRUCTION TYPE**  
New Construction

**THERMA-FUSER SYSTEM  
CONFIGURATION**

- Option 1: Therma-Fuser Stand Alone Diffusers
- Option 2: Therma-Fuser Stand Alone Diffusers with Room Temperature Sensors and Adjusters

**ACUTHERM MANUFACTURER'S REP**  
McMillan James Equipment Company

## PROJECT DESCRIPTION

McMillan James Equipment Company, a premier manufacturer's rep for Acutherm, just completed an alluring 15,000 square foot Product Showroom and Training Center. The Training Center accommodates up to 75 guests and features a state-of-the-art audio-visual system with multiple screens designed for video conferencing, BIM modeling, and product application seminars. The purpose of the facility is to educate customers – offering a unique opportunity for engineers and building owners to see combinations of equipment in use and in a full system configuration setting.

Air distribution control within the facility is accomplished with variable-air-volume diffusers. All supply diffusers throughout the facility are Therma-Fuser™ VAV Diffusers with complete BACnet® interfaces.

The Product Showroom exhibits HVAC equipment from a variety of manufacturers. Acutherm's Therma-Fuser VAV Diffusers are a showcased product, demonstrating comfort and energy savings with full Building Automation System (BAS) integration down to the device level.
